

iM Global Partner Launches New Dividend Growth Fund Active ETF with Berkshire Asset Management (BDVG)

Los Angeles and Pennsylvania - June 29, 2023.

[iM Global Partner](#) (iMGP) and its Partner [Berkshire Asset Management](#) (BAM) will launch a new dividend growth exchange traded fund (ETF) on the New York Stock Exchange on June 30.

The iMGP Berkshire Dividend Growth Equity ETF (BDVG) is an active, fully transparent ETF that seeks to achieve its objective by investing in dividend-paying equity securities, with an emphasis on stocks that have a strong track record of paying dividends or that are expected to increase their dividends over time.

This new ETF will leverage the same dividend growth investment strategy that BAM has managed in a separate account format for the past 14 years for high net worth and institutional investors in the US. This Separately Managed Account (SMA) has an investment universe that is predominantly U.S. large-cap stocks. BDVG is a clone of this SMA and both are managed by the same team, using the same investment process and philosophy.

Berkshire's investment philosophy is centered around buying high-quality, undervalued companies and holding them for a long period of time. They firmly believe that a company's dividend yield and history of growing dividends are a byproduct of strong business fundamentals.

"Our investment approach is focused around evaluating the current dividend but also takes into consideration the overall quality of the business and its future prospects" said **Gerard Mihalick, Portfolio Manager and Partner at BAM**. "We don't simply rely on historical dividend screens. We have a very rigorous approach that evaluates a company's value and potential for future dividend growth. We conduct our analysis as if we were going to acquire the entire company. This is what we believe gives us an edge over other strategies and believe it's a commonsense approach to investing.

"We are launching this new ETF thanks to an increasing number of advisors and clients asking to access the Berkshire Asset Management Dividend Growth Equity Strategy in an ETF format", shared **Jeff Seeley, Deputy CEO - CEO of iM Global Partner Fund Management**. "We are happy to be able to extend another

one of our Partner’s flagship products into an additional investment vehicle so that more clients and advisors can access BAM’s long standing investment strategy. We are delighted to have BDVG as the latest addition to our growing ETF platform that is now comprised of four ETFs sub-advised by three of our iMGP Partners”.

Although the manager actively manages risk to reduce portfolio volatility, there is no guarantee that the fund will always maintain its targeted risk level, especially over shorter time periods and loss of principal is possible. The performance goals are not guaranteed, are subject to change, and should not be considered a predictor of investment return. All investments involve the risk of loss and no measure of performance is guaranteed. The fund aims to deliver its return over a full market cycle, which is likely to include periods of both up and down markets.

Securities that pay dividends, as a group, may be out of favor with the market and underperform the overall equity market or stocks of companies that do not pay dividends. In addition, changes in the dividend policies of the companies held by the Fund or the capital resources available for such company's dividend payments may adversely affect the Fund.

The Fund intends to pay out dividends and interest income, if any, annually and distribute net realized capital gains, if any, to its shareholders at least annually. There is no assurance that the funds will be able to maintain a certain level of distributions. The fund is newly organized with no history of performance.

Though not an international fund, the fund may invest in foreign securities. Investing in foreign securities exposes investors to economic, political and market risks, and fluctuations in foreign currencies.
